Research Papers

Surface modifications in the chalcopyrite–sulphite ion system. I. collectorless flotation, XPS and dissolution study
S.R. Grano, M. Sollaart, W. Skinner, C.A. Prestidge and J. Ralston 1

Surface modifications in the chalcopyrite–sulphite ion system, II. Dithiophosphate collector adsorption study
S.R. Grano, H. Cnossen, W. Skinner, C.A. Prestidge and J. Ralston 27

Isotherms for the chemisorption of ethyl xanthate on lead
R. Woods, Z. Chen and R.-H. Yoon 47

An improved formula for terminal velocity of rigid spheres
A.V. Nguyen, H. Stechemesser, G. Zobel and H.J. Schulze 53

Electrochemical oxidation of arsenopyrite in acidic media
I. Lázaro, R. Cruz, I. González and M. Monroy 63

Minimization of Ni(II) precipitation in the Ni(II)–NH_3–SO_2–$(NH_4)_2$ SO_4–MnO_2 system
P.K. Das, S. Anand and R.P. Das 77

Investigation of chrome(VI) oxide production from chromite concentrate by alkali fusion
C. Arslan and G. Orhan 87

Contact time during impact of a spherical particle against a plane gas–liquid interface: theory
A.V. Nguyen, H.J. Schulze, H. Stechemesser and G. Zobel 97

Contact time during impact of a spherical particle against a plane gas–liquid interface: experiment
A.V. Nguyen, H.J. Schulze, H. Stechemesser and G. Zobel 113

Cyanidation of a copper–gold ore
G. Deschênes and P.J.H. Prud'homme 127

The benefication of minerals by magnetic jigging, Part 1. Theoretical aspects
I.J. Lin, M. Krush-Bram and G. Rosenhouse 143

Sedimentation of homogeneous suspensions at intermediate particle Reynolds numbers
M.H. Abu-Ali 161

Studies on selective flocculation of complex sulphides using cellulose xanthate
N.R. Mandre and D. Panigrahi 177

Pyrite recovery mechanisms in coal flotation
S.K. Kawatra and T.C. Eisele 187

Growth and attachment of *Thiobacillus ferrooxidans* during sulfide mineral leaching
Y.R.K. Mirajkar, K.A. Natarajan and P. Somasundaran 203

The behaviour of silica in gold cyanide solutions
F.W. Petersen and J.S.J. Van Deventer 211

Interaction of thionocarbamate and thiourea collectors with sulphide minerals: a flotation and adsorption study
G. Fairthorne, D. Fornasiero and J. Ralston 227

Effect of hydrolysed aluminum(III) and chromium(III) cations on the lipophilicity of talc
E. Kusaka, N. Amano and Y. Nakahiro 243

Batch and semi-continuous tests in the bioleaching of manganiferous minerals by heterotrophic mixed microorganisms
F. Vegliò, F. Beolchini, A. Gasbarro, L. Toro, S. Ubaldini and C. Abbruzzese 255

Flotation of oxidized minerals of copper using a new synthetic chelating reagent as collector
M. Barbaro, R. Herrera Urbina, C. Cozza, D. Fuerstenau and A. Marabini 275
A lumped discrete population balance model for shear flocculation—model development
D.P. Patil, J.R.G. Andrews and P.H.T. Uhlherr 289
Value addition of paper coating grade kaolins by the removal of ultrafine coloring impurities
P. Raghavan, S. Chandrasekhar and A.D. Damodaran 307

Announcement 317
